

OPTK Networks is seeking a highly motivated and experienced **Field Manager** to oversee fiber, electronic, and customer installations. The Field Manager will be responsible for managing a team of field technicians and engineers, ensuring efficient and effective execution of projects. The ideal candidate will have strong leadership qualities, excellent problem-solving skills, and a proven track record of managing and motivating a team to achieve exceptional results.

**Responsibilities:**

- Monitor and control project costs.
- Plan, coordinate, and manage all field activities.
- Collaborate with the management team to improve quality and efficiency.
- Supervise OSP personnel, ensuring their work follows established policies, standards, schedules, and safety practices.
- Foster a positive work environment, encouraging teamwork, collaboration, and professional development within the team.
- Establish and maintain effective communication channels with clients, contractors, suppliers, and other team members.

**Qualifications:**

- Bachelor's degree or equivalent experience.
- 1-3 years of field management experience required.
- Strong knowledge and understanding of project management principles.
- Excellent communication and interpersonal skills
- Fundamental understanding of fiber optic design principles and implementation.
- Strong organizational and time management skills, with the ability to prioritize and delegate tasks effectively.
- Ability to professionally resolve customer complaints and escalation issues.

At OPTK Networks we offer competitive compensation packages, ongoing career development opportunities, and a supportive team environment. If you are a driven, analytical, and detail-oriented professional looking for an exciting new challenge in the telecommunications industry, we want to hear from you!
